

FLYING GREENER, WE SOAR HIGHER

By investing aggressively in research and development, working with European entities on European research projects (e.g., Clean Sky, SESAR, etc.) and with the European Union Aviation Safety Agency (EASA), as well as capitalizing on a unique systems perspective that reveals the specific needs of our customers, we are making a powerful contribution to aerospace sustainability.

On the ground, we're transitioning to new manufacturing techniques and components to support sustainability with nanotechnology, carbon components and additive manufacturing. In the air, our new systems are designed to improve fuel efficiency and reduce noise pollution – all to make our world a better place.

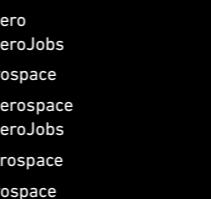

ABOUT COLLINS AEROSPACE

Collins Aerospace, a unit of United Technologies Corp. (NYSE: UTX), is a leader in technologically advanced and intelligent solutions for the global aerospace and defense industry. Created in 2018 by bringing together Rockwell Collins and UTC Aerospace Systems, Collins Aerospace has the capabilities, comprehensive portfolio and expertise to solve customers' toughest challenges and to meet the demands of a rapidly evolving global market.

WE ARE YOU

We are inventors, innovators, thinkers, manufacturers, motivators, leaders, problem solvers, dreamers and achievers. We are a community of inspired, high-performing professionals who work together to make the skies and spaces we touch smarter, safer and more amazing than ever. Together, we're boldly stepping forward. Together, we are redefining aerospace.

WE OFFER YOU SPACE TO SOAR

Take advantage of challenging and rewarding opportunities for entry-level, mid-career and senior professionals, as well as robust internships and cooperative learning programs for undergraduate and graduate students. We strive to have an intellectually curious and innovative team, and to turn dreams into realities.

TAKE YOUR CAREER HIGHER

As a member of our team, you will work on boundary-breaking projects – on a global stage and on an impressive scale. You will collaborate with industry leaders, world-renowned experts, award-winning innovators and great people who are genuinely committed to helping you grow and succeed.

You'll also thrive participating in our many professional development programs. Our Employee Scholar program is recognized as one of the most comprehensive employee education programs in the world. Our Rotational Leadership

Programs are designed to advance careers. Our early career leadership program provides "shadow experiences" across the company. And we have internationally accredited engineering programs to help build your skills, giving you a chance to grow into the future.

Best place to work

- You can have a career here, not just a job
- We are an equal opportunity employer
- Inclusion and diversity are among our core priorities

YOU BELONG HERE

With approximately 300 sites in nearly 30 countries, it's no wonder we inspire professionals from around the world to pursue what's possible. At Collins, you'll work alongside people from different backgrounds, experiences and perspectives, all united to create breakthroughs far superior to anything that might be accomplished alone. That's the power of people, working shoulder to shoulder, in multi-geographical, multi-disciplinary teams.

Our Employee Resource Groups (ERGs) also bring like-minded individuals together. With shared interests, ERG chapters foster advocacy, professional development, education and mentoring as well as community outreach. That's why we all belong here, and it's why you will, too.
